

Hear what our clients are saying about comXP™ !

“In this competitive industry we rely on technology to increase our ease of doing business. comXP™ is a highly effective business tool that allows us to effortlessly manage our commercial book. The functionalities of comXP™ are unparalleled, from the custom templates that allow for professional proposals and submissions to useful management reports which facilitate the analysis of our successes. The system is integrated with our personal lines broker management system, sigXP™, which eliminates the need for dual entry. I highly endorse comXP™ and recommend this product to any broker looking to grow their commercial book of business.”

David Hare

President

Petley Hare Insurance Brokers Ltd.

“We switched our commercial management system to Keal’s comXP™ back in July, 2007 because we felt it would be more efficient to have our data centralized with sigXP™, our primary broker management system. We love the flexibility that we gained with comXP™. The application provides standard documents, but also allows us to create our own unique renewal reviews, submissions, proposals, etc..., which is a must for us. We enjoy a great relationship with Keal and appreciate their dedicated service. Our ideas and concerns are heard and the team at Keal truly cares about working with us to meet our expectations. “

Linda E. Edisbury, CIP, CAIB, CHRP

Executive Vice President

H.L. Staebler Company Limited

“Brokers demonstrate value to their clients through their service. To achieve this, it is important to have the right tools for the job. By using comXP™, we are able to streamline workflows for our staff so that they can focus on the client. Integration with our broker management system sigXP™ eliminates dual entry and integration with insurers allows us to take a client through the sales process in hours instead of weeks. The reporting and marketing functionalities available to us via the SQL database enable us to effectively manage the business in real time. If a broker is looking to grow commercially, comXP™ is an investment that has guaranteed returns.”
